One take said to be much in favor of his history of "From Lincoln to Garnice lacrease of the lack in this country field." He will then begin upon a his and heat. It takes a large range of dis-ribution, from the south of Europe as-ar north as Horway and Lapland, and gap, and has already gathered a mass of American ornithologists lay claim to it material for it. A personal friend of as an American bird, from its being oc- illaine's declared that he was offered casionally found in Greenland and in \$100,000 in cash for two volumes of the Bermudas. Vigilance, it is thought, "Prom Lincoln to Garfield." He is no may be required to protect them from business man, and was about to accept themies. From the fact that skyla ks acresse most rapidly in highly cultiva | do it, but to insist in its place upon a sumbers are destroyed by man. As it sleeps and nests on the earth it is thought probable that its worst enemies are small animals, such as minks, wears la and skunks.—New York Sun. him in nearly as much as the first cash offer would have done. The publishers The town of Tournai, Belgium, held have advance orders for 100,000 volumes

The Midget Sheep. The very smallest of all the kinds of sheep is the tiny Breton sheep. It is no small to be very profitable to rai e for, of course, it can not have much dians and that his work was more for glory than in the interest of ethnological science.

In Epitaph of the ligh instant announces its return to the republican fold, "starting in May, 1880, as an advocate of the principles of that party, is maintained them steadily until May, is maintained their interest to a syndic-te which mad. Justics, who is one of the representa-Samuel Purdy manager, and under he tives of Tournei in the chamber, and of administration, also under that or he local authorities. The statue is a could take an ordinary ship on her lay and cuddle it there; but any hitle girl could find room in her lap for a Breton sheep quite as easily as for one of those very ugly little dogs call by the ugly One of this little creature's peculiari-

ered cathesiral every year since 1682. At ties is its extreme sympathy with the fournat, which possesses also Gallait's feeling of its human friends, when it has been brought up as a pet in th house, and has learned to distinguish between happiness and unhappiness. If any person whom it likes a great deal is very much pleased about anything, and but if, on the contrary, the person shed tears, the sympathetic friend will eviace will also fill it with happiness, while a cross word or a harsh gesture will cause it evident distress .- John R. Coryell in

St. Nicholas for October.

A Phenomenon. peak of the main Sierra, lying nearly west of Steamboat Springs, Nevada, is a huge fissure, formerly a portion of the crater of an extinct volcano, which has birth to the hour at which he had fallen asleep. All his sins were in glowin scariet colors; sins which he law is such that the whites. This snow has continued by the whites. ranchmen of Washee valley. Never before has the chism been seen bare of snow. No one has yet been up to five the tigate, but it is feared that the old tigate, but it is feared that the old the properties and of Milb access.
